The Liposuction Market

As today's most popular aesthetic surgery, liposuction was performed more than 455,000 times in 2005 - representing a 63% increase in procedure volume from 1997. Smart Lipo is a minimally invasive procedure that not only melts fat, but also tightens the skin.

Market Snapshots

- Demand for liposuction has propelled it to become the #1 aesthetic surgery in a short period of time; in fact, as recently as 2003, it was #2 in popularity, with approximately 320,000 procedures.
- Traditionally performed on women, now more and more men are undergoing liposuction and particularly smart lipo.
- SmartLipo was the Most Sought After New Procedure in 2007 on AmericanHealthandBeauty.com

Dear Colleague:

Have you ever thought about integrating liposuction into your current practice offerings but did not know where to start? Are you already offering liposuction to your patients? If so, I want to introduce you to a new, dynamic educational program to allow you the best possible opportunity to learn the latest in liposuction techniques. These techniques make it easier than ever before to offer liposuction services to your new and existing patients.

-- Bruce E. Katz, MD

experts

Bruce E. Katz, MD

Dr. Katz is Clinical Professor of Dermatology at The Mount Sinai School of Medicine, and Director of the Cosmetic Surgery & Laser Clinic at Mount Sinai Medical Center in New York.

Dr. Katz, who has been named by New York Magazine as one of the best doctors in New York, received his medical training at McGill University Faculty of Medicine in Montreal, Canada.

A frequent guest on national and international news shows, including The View, 20/20, Good Morning America and CNN, Dr. Katz is a leading innovator of advanced laser technology and skin rejuvenation techniques. He has published extensively in leading medical and scientific journals and lectures regularly at medical symposia in the United States and abroad.

Michael C. Bruck, MD

Dr. Bruck is certified by the American Board of Plastic Surgery and a member of The American Society of Plastic Surgeons. From 1985 to 1995 Dr. Bruck held the academic appointment of Clinical Assistant Professor in the Department of Surgery at Downstate Medical Center. Dr. Bruck is now an attending physician at St. Lukes Roosevelt Hospital.

Dr. Bruck's expertise is in cosmetic plastic surgery including facial rejuvenation (facelift, eyelid surgery, and laser surgery) breast enlargement and reduction as well as body contouring (abdominoplasty/liposuction).
