Under the guidance of laser pioneer Dr. Bruce E. Katz, our physicians and staff understand the proper use of lasers to achieve your cosmetic goals. We believe that the best tools in the best hands will give you the best results.

And a major advance in comfort...

JUVA Skin & Laser Center is pleased to be one of the first cosmetic centers in the country to offer Pro-Nox - a revolutionary device that allows you to have any type of treatment without any discomfort. Pro-Nox is designed to deliver a mix of oxygen and nitrous oxide to help you alleviate pain and anxiety during a treatment. Often times, the biggest issue with any treatment is the accompanying discomfort. Just take a few inhalations periodically and during the treatment, you remain pain-free. Now with Pro-Nox, you are able to have immediate relief during your procedure, without any needles or long-lasting effects.

Laser Facial Rejuvenation

Advances in laser technology are constantly giving us new and better ways to turn back the clock on aged skin, often with little or no downtime, side effects, or risks. Lasers can address some of the most common complaints of aged skin, giving dull, crepey, uneven skin a smoother, more lustrous appearance. Procedures we offer include:

- Skin resurfacing
- Skin tightening
- Age spot treatment
- Sun damage treatment
- Capillary, Vein and Port wine stain Treatment

Laser Treatments for Medical Conditions:

- Photodynamic therapy for acne and precancerous growths
- XTRAC Eximer Laser for vitiligo, psoriasis and eczema/atopic dermatitis

Laser Aesthetic Treatments

In addition to facial rejuvenation, lasers also offer us many options for achieving the appearance you desire. Laser aesthetic treatments include:

- Laser scar treatment
- Keloid scar treatment
- Laser tattoo removal

Stretch marks

Laser hair removal

Laser Body Contouring
We also offer the following laser body contouring options which can help you target stubborn fat and cellulite that don't respond to diet or exercise.:

**SculpSure non-invasive fat loss** [13]

**SmartLipo** [14]

**ThermiTight** [15] (skin tightening)

**Cellulaze** [16] (laser cellulite treatment)

**FemiLift** [17] (vaginal tightening)

**ClearLift** [18]

As Dr. Bruce Katz explained on ABC's 'The View', our **advanced laser technologies** [19] are now able to treat a broader range of medical conditions and ensure a more rapid recovery time. The fractional CO₂, for instance, banishes wrinkles with greater precision and allows you to return to work much sooner. Other advanced laser systems have dramatically improved the art of hair removal and revolutionized the treatment of spider veins by virtually erasing them from the face and legs.

To learn more about how JUVA Skin & Laser Center can help you achieve your aesthetic goals, please contact us online today at **(888) 610-3133** [20].
